

**Ideal for Landscape  
& Grower Applications**

## 2-Cubic-Yard Super Sacks

Get Wakefield bulk biochar in large, 2-cubic-yard totes ("super sacks") for easy transport, storage, and application. Perfect for landscapers, growers, soil blenders, and municipal projects.

### **Premium Biochar**

A premium, plant-based soil amendment that improves aeration, supports beneficial microbes, and holds nutrients and moisture, promoting stronger roots and healthier, more resilient plants.

### **Biochar Pro Garden Mix**

A nutrient-rich, ready-to-use 50/50 blend of biochar and compost with mycorrhizae. Provides organic matter, beneficial biology, and enhanced soil structure in a single, efficient application.

### **Biochar with CarbonBoost™**

A biologically activated blend that pairs our biochar with mycorrhizae, humic acid, and probiotics. Designed for faster nutrient uptake and quicker results than our premium biochar on its own.
